Design & Construct

A

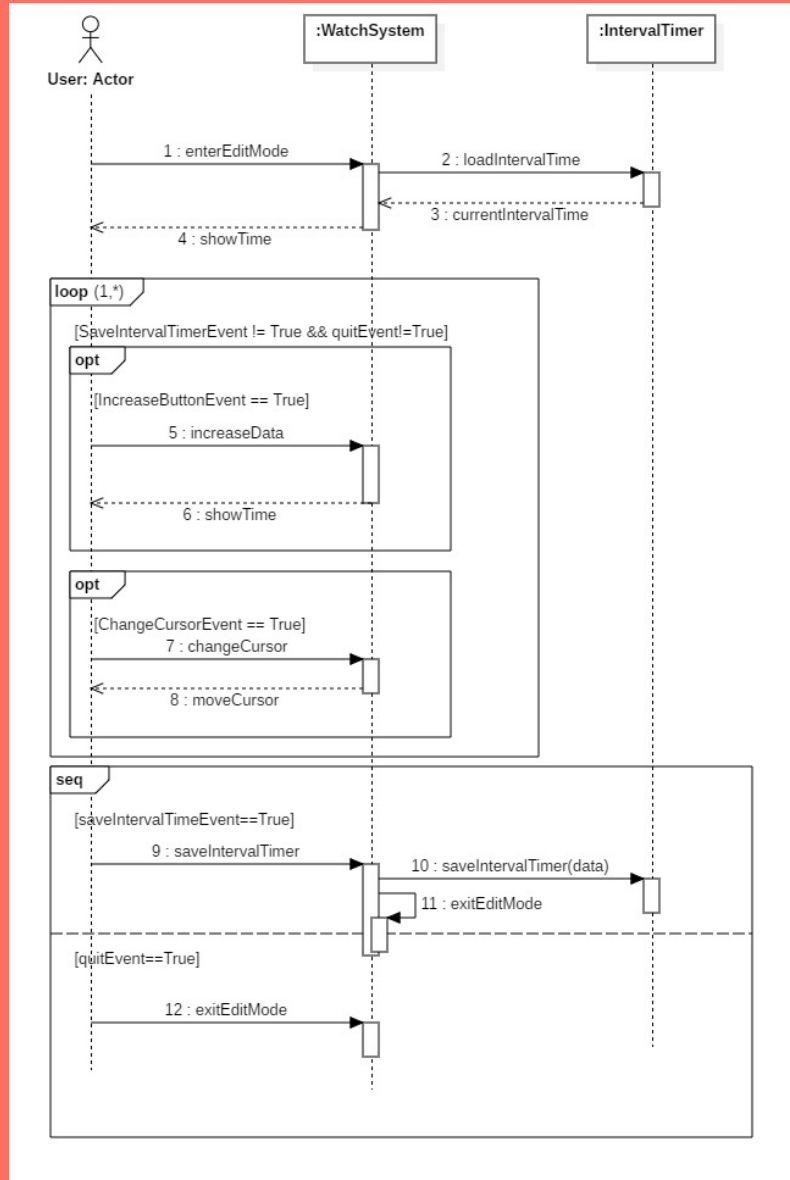

C

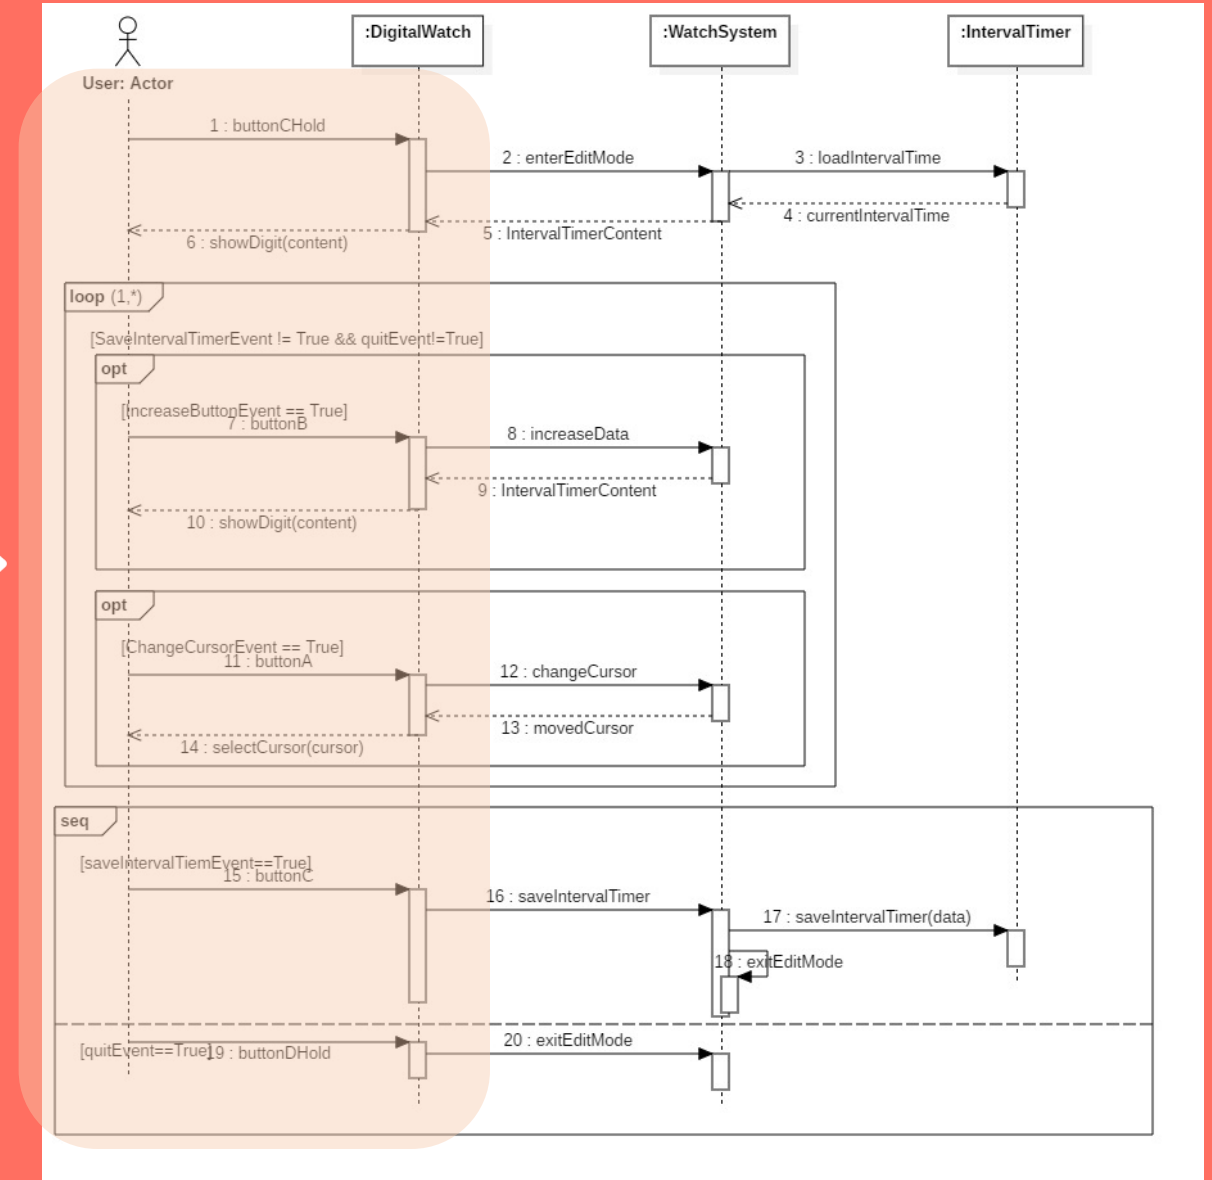

B

D

Implement Window

Use Case 23. Set Interval Timer

Implement Window

Name	buttonB
Responsibility	사용자가 시계의 B버튼을 누른다.
Type	GUI
Cross Reference	R 1.1, R 2.1, R 2.2, R 2.4, R 3.1, R 3.2, R 4.1, R 4.3, R 4.4, R 5.1, R 6.2, R 6.2, R 6.3, R 7.2, R 7.3
Notes	<p>현재 모드가 editMode일 경우 현재 커서의 값을 증가시켜준다.</p> <p>현재모드가 WatchTimer, Stopwatch일 경우 start/pause상태를 변화시켜준다.</p> <p>현재모드가 Alarm, D-day, IntervalTimer 모드일 경우 enable/disable상태를 변화시켜준다.</p> <p>현재모드가 setmode일 경우 모드 선택을 할 수 있다.</p> <p>알림이 울리고 있을 경우 mute시켜준다.</p>
Pre-Conditions	N/A
Post-Conditions	display모드의 경우 활성화 비활성화를 시켜줘야되고, Edit Mode 의 경우 증가된 값을 보여준다. SetMode의 경우 모드를 선택해준다.

Name	buttonCHold
Responsibility	사용자가 시계의 C버튼을 1초 이상 누른다.
Type	GUI
Cross Reference	R 1.1, R 2.2, R 4.1, R 4.2, R 5.1, R 6.3, R 6.4, R 7.3
Notes	현재 모드가 StopWatch를 제외한 displayMode일 경우 각 모드가 editMode로 변경된다. 알림이 울릴 경우 Mute시켜주고 해당 모드의 buttonCHold를 수행한다.
Pre-Conditions	N/A
Post-Conditions	N/A

Name	buttonDHold
Responsibility	사용자가 시계의 D버튼을 1초 이상 누른다.
Type	GUI
Cross Reference	R 1.1, R 2.2, R 4.1, R 4.2, R 5.1, R 5.2, R 6.3, R 6.4, R 7.2, R 7.3
Notes	<p>각 모드의 edit Mode에서 수정된 값을 저장하지 않고 displayMode로 빠져나온다.</p> <p>현재 모드가 setMode일 경우 수정된 모드들을 저장하지 않고 setMode를 진입한 모드로 빠져나온다.</p> <p>알림이 울릴 경우 Mute시켜주고 해당 모드의 buttonDHold를 수행한다.</p>
Pre-Conditions	N/A
Post-Conditions	N/A

Write Test Code & Unit Testing

```
@Test
void changeMode() {
    Boolean[] tmpSetMode = {true, true, true, false, false};
    ws.setSetMode(tmpSetMode);
    ws.saveMode();
    Object nextMode = ws.getModeManager().getWatchTimer();
    ws.changeMode();
    assertEquals(ws.getCurrentMode(), nextMode);
    assertEquals(ws.getCurrentDdayPage(), actual: 0);
    assertEquals(ws.getCurrentAlarmPage(), actual: 0);
    assertFalse(ws.getEdited());
}
```

Run: DigitalWatch x WatchSystemTest.changeMode x

✓ Tests passed: 1 of 1 test – 21 ms

Test Results 21ms /Library/Java/JavaVirtualMachines/jdk1.8.0_201.jdk/Contents/Home/bin/java ...

- ✓ WatchSystemTest 21ms
 - ✓ changeMode() 21ms

Process finished with exit code 0

Testing Traceability analysis
