

OOAD

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Set timekeeping date |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Timekeeping mode이고 Timekeeping mode의 디폴트화면이어야만 한다. |
| Typical Courses of Event | (U) : User, (S) : System 1. 2. 3. 4. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Set worldTime |
| Actor | None |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Worldtime mode이고 Worldtime mode의 디폴트화면이어야만 한다. |
| Typical Courses of Event | |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | |

2031. Define Essential Use Cases

| | |
|------------------------------|--|
| Use case | Store alarm |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Alarm mode이어야만 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User inputs the time 2. (S) Add alarm with specific time 3. (S) Alarm on |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Activate alarm |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Alarm mode이고 설정한 알람중 하나를 보고 있는중이어야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User sets the alarm on 2. (S) Alarm on |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Deactivate alarm |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Alarm mode이고 설정한 알람중 하나를 보고 있는중이어야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User sets the alarm off 2. (S) Alarm off |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Set timer |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가Timer mode이고 Timer mode의 디폴트화면이어야만 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User inputs the time. 2. (S) Check the setted time is 00:00. 2. (S) The time user inputs is setted in system. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | 사용자가 설정한 시간이 00:00일시 저장되지 않는다. |

2031. Define Essential Use Cases

| | |
|------------------------------|--|
| Use case | Play timer |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가Timer mode이고 timer의 시간을 설정한 상태여야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User set the timer on. 2. (S)check the setted time is 00:00. 2. (S) count seconds. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | 타이머의 시간이 00:00일 때 동작을 멈춘다. |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Pause timer |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가Timer mode이고 timer의 시간을 설정한 상태여야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User pause the timer. 2. (S) Pause counting. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | End timer |
| Actor | None |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 모드가Timer mode이고 timer의 시간을 설정한 상태여야한다. |
| Typical Courses of Event | (S) : System 1. The buzzer sounds when the set timer is 00:00. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Play stopwatch |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Stopwatch mode이어야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User set the stopwatch playing. 2. (S) check the time is over 59:59(MM:SS). 3. (S) count seconds. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | 스탑워치가 59분 59초 넘어서면 버저가 울리며 초기화면으로 돌아간다. 스톱워치의 시간은 00:00으로 초기화 된다. |

2031. Define Essential Use Cases

| | |
|------------------------------|--|
| Use case | Pause stopwatch |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Stopwatch mode이어야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User set the pause button. 2. (S) Check if button is clicked before 3. (S) If it is stopped before, restart the timer. 4. (S) Pause the stopwatch |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|--|
| Use case | Reset stopwatch |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 모드가 Stopwatch mode이어야 한다. 스탑 위치가 정지된 상태여야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User set the reset button. 2. (S) check if stopwatch is paused. 3. (S) Reset the stopwatch |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | 스탑워치가 진행중인 경우 정지 상태로 만든다. |

2031. Define Essential Use Cases

| | |
|------------------------------|--|
| Use case | Select Worldtime |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 Wordltime mode 이어야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User select the nation. 2. (S) Display time of selected nation. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Click button |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) User click button. 2. (S) Execute. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|--|
| Use case | Buzzer sound |
| Actor | None |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) Buzzer ring when is in the specific condition. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Select Mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Evident |
| Cross Reference | |
| Pre-Requisites | 모드 변경시 각 모드의 디폴트 화면에 있어야 한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (A) Choose mode. 2. (S) Execute. |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show Dynamic display mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 dynamic display mode 이어야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show dynamic display when user select Dynamic display mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show Timekeeping mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 Timekeeping mode 이어야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show timekeeping display when user select Timekeeping mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show stopwatch mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 Stopwatch Mode 이어야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show stopwatch display when user select stopwatch mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show alarm mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 Alarm mode 이어야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show alarm display when user select alarm mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show wolrdtime mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 WorldTime mode 이어야한다 |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show Worldtime display when user select WolrdTime mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show timer mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 Timer mode 이어야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show timer display when user select Timer mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2031. Define Essential Use Cases

| | |
|------------------------------|---|
| Use case | Show OOO mode |
| Actor | User |
| Purpose | (As in the the business use case) |
| Overview | (As in the the business use case) |
| Type | Hidden |
| Cross Reference | |
| Pre-Requisites | 현재 상태가 OOO모드 이어야한다. |
| Typical Courses of Event | (A) : Actor, (S) : System 1. (S) System show OOO display when user select OOO mode . |
| Alternative Courses of Event | N/A |
| Exceptional Courses of Event | - |

2033. Define System Sequence Diagrams

Use case: Set Timekeeping date

1. (A) User inputs time.
2. (S) Display set time while the digital watch is in the Timekeeping mode.

User

System

2033. Define System Sequence Diagrams

Use case: Store Alarm

1. (A) User inputs the time
2. (S) Add alarm with specific time
3. (S) Alarm on

User

System

2033. Define System Sequence Diagrams

Use case: Activate alarm

1. (A) User sets the alarm on
2. (S) Alarm on

User

ActivateAlarm()

System

2033. Define System Sequence Diagrams

Use case: Deactivate alarm

1. (A) User sets the alarm off
2. (S) Alarm off

User

System

2033. Define System Sequence Diagrams

Use case: Set Timer

1. (A) User inputs the time.
2. (S) count seconds.
3. (S) Buzzer when the counted seconds equals the saved seconds.

User

System

2033. Define System Sequence Diagrams

Use case: Play Timer

1. (A) User set the timer on.
2. (S) count seconds.
3. (S) Buzzer when the counted second equals to set time

User

PlayTimer()

System

2033. Define System Sequence Diagrams

Use case: Pause Timer

1. (A) User pause the timer.
2. (S) Pause counting.

User

System

2033. Define System Sequence Diagrams

Use case: Play Stopwatch

1. (A) User set the stopwatch.
2. (S) count seconds.

User

PlayStopwatch()

System

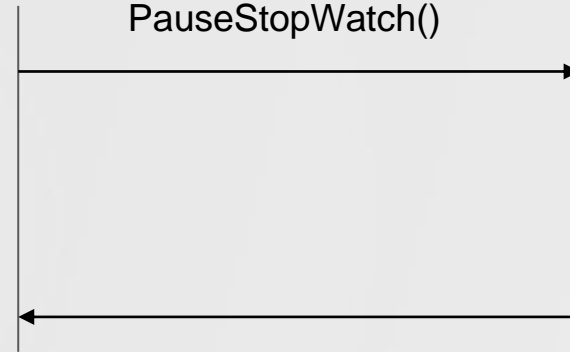

2033. Define System Sequence Diagrams

Use case: Pause stopwatch

1. (A) User set the pause button.
2. (S) Check if button is clicked before.
3. (S) If it is stopped before, restart the timer.
4. (S) Pause the stopwatch

User

System

2033. Define System Sequence Diagrams

Use case: Reset Stopwatch

1. (A) User set the reset button.
2. (S) Reset the stopwatch

User

System

2033. Define System Sequence Diagrams

Use case: Select Worldtime

1. (A) User select the nation.
2. (S) Display time of selected nation.

User

System

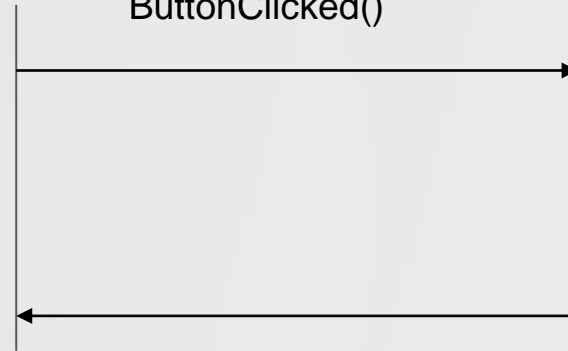

2033. Define System Sequence Diagrams

Use case: Click button

1. (A) User click button.
2. (S) Execute.

User

System

2033. Define System Sequence Diagrams

Use case: Select Mode

1. (A) Choose monde.
2. (S) Execute.

User

System

2033. Define System Sequence Diagrams

Use case: Show Dynamic display screen

1. (S) System show Dynamic screen when user select Dynamic display mode.

User

System

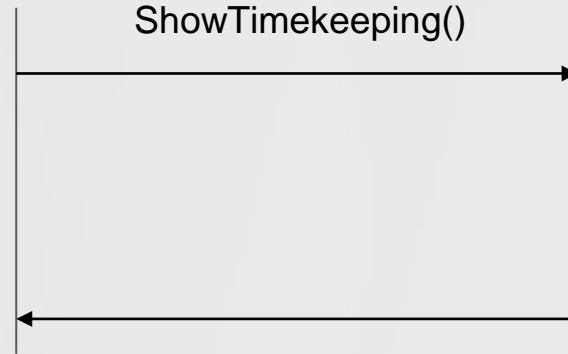

2033. Define System Sequence Diagrams

Use case: show Timekeeping screen

1. (S) System show TimeKeeping screen when user select Timekeeping mode

User

System

2033. Define System Sequence Diagrams

Use case: show WorldTime screen

1. (S) System show WorldTime screen when user select WorldTime mode

User

System

2033. Define System Sequence Diagrams

Use case: Show timer screen

1. (S) System show Timer screen when user select Timer mode

User

System

2033. Define System Sequence Diagrams

Use case: Show stopwatch screen

1. (S) System show Stopwatch screen when user select stopwatch mode

User

System

2033. Define System Sequence Diagrams

Use case: Show alarm screen

1. (S) System show Alarm screen when user select Alarm mode

User

System

World time

Timer

Store Alarm

Set timekeeping date

Buzzer

Stopwatch

2038. Refine System Test Cases

| No. | Tests | Descriptions |
|-----|----------------------|---------------|
| 1 | Set timekeeping date | Default 화면 |
| 2 | Store alarm | Time 입력 |
| 3 | Activate alarm | Alarm 실행 |
| 4 | Deactivate alarm | Alarm 해제 |
| 5 | Set timer | Time 입력 |
| 6 | Play timer | Timer 실행 |
| 7 | Pause timer | Timer 중지 |
| 8 | Play stopwatch | Stopwatch 실행 |
| 9 | Pause stopwatch | Stopwatch 중지 |
| 10 | Reset stopwatch | Stopwatch 초기화 |

2038. Refine System Test Cases

| | | |
|----|---------------------------|----------------------------|
| 11 | Select world time | 세계시간 선택 |
| 12 | Click button | Button 클릭 |
| 13 | Select mode | Mode 선택 |
| 14 | Show dynamic display mode | Dynamic display mode 화면 출력 |
| 15 | Show timekeeping mode | Timekeeping mode 화면 출력 |
| 16 | Show stopwatch mode | Stopwatch mode 화면 출력 |
| 17 | Show alarm mode | Alarm mode 화면 출력 |
| 18 | Show timer mode | Timer mode 화면 출력 |
| 19 | Show OOO mode | OOOmode 화면 출력 |
| 20 | Set world time | 세계시간 setting |
| 21 | End timer | Timer 종료 |
| 22 | Buzzer sound | Buzzer 알림 |

2039. Refine System Test Cases

감사합니다.
